

TREAZURES photography workshop

A BEGINNER'S GUIDE to SLR Photography Basics Workshop

Have you always wanted to learn about Outdoor Landscape and Travel Photography?

Presented by well-known professional photographer Andy Lim, this workshop offers a basic introduction to photography, whereby instructions will be given on what camera settings to use in specific situations and tips on framing and composition, using real-world examples. Participants will perform photography exercises which will help them achieve a better understanding of the photography world.

Andy Lim will present his collection of travel and landscape photography through a narrated slideshow and exhibition prints. Following this, participants will get a preview of what Andy teaches in his SimpleSLR PhotoClass via a hands-on workshop. A Digital SLR is recommended for this workshop.

Learn some photography basics such as:

- Exposure
- Getting sharp pictures
- Slow Shutter Techniques
- Composition
- Using the 3 essential modes—Manual, Aperture Priority, Shutter Priority
- Focusing Techniques

ABOUT ANDY LIM

Andy Lim has over 17 years of professional experience in the art of visual communications, specifically in the areas of photography, web design, technology and optimization.

He got started in photography after leaving college in 1992, at first with travel and landscapes and later weddings and commercial assignments. Andy has given several public talks on the subject of photography, and currently conducts photography classes for beginners.

REQUIRED GEAR

As this is a practical session, ideally your camera would be a digital SLR. If you own a compact digital camera, it should be at least a model which has a full Manual mode.

To sign up, please call 03 77280184 or email to kailee.chan@accent-edge.com.
